WORK EXPERIENCE

Web Development Trainee – Pupilfirst

Nov 2023 – March 2024

- Completed a structured training program on React.js, JavaScript, Node.js, and Express.js.
- Gained hands-on experience in building full-stack applications and implementing best practices.
- Worked on real-world projects to develop responsive web applications with optimized UI/UX.
- Learned API development using Express.js and MongoDB for backend services.
- Improved problem-solving skills through debugging and performance optimization techniques.

Frontend Developer – E-tailed India

June 2025 – Aug 2025

- Contributed as a frontend developer to a SaaS-based product, collaborating closely with a cross-functional team.
 - Developed responsive and interactive UI components using React.js and Tailwind CSS.
 - Participated in agile workflows including sprint planning, stand-ups, and code reviews.
 - Integrated REST APIs with backend teams to improve performance and user experience.
 - Delivered responsive, pixel-perfect designs with scalable component architecture.
-

PROJECTS

Food Delivery Website – Frontend Developer

- Built a fully functional food ordering platform with a responsive UI using the MERN stack.

CRM Frontend for Boundary Company – Frontend Developer

- Developed a custom CRM frontend with HubSpot API integration for optimized client data management.

Healthcare Patient Management System – Full-Stack Developer

- Developed a web-based platform for patient management, virtual booking, and doctor video consultations.

E-tailed website redesign and developed – Full-Stack Developer

- Created a real-time chat application with instant messaging, JWT authentication, and emoji support.

Blog website – Full-Stack Developer

- Developed a responsive blog website enabling users to read and explore tech blogs dynamically fetched from a backend API.
